

PROOFS in support of a FLAT-EARTH False Claims Act action

Questionnaire for the flat-Earth challenge

Background

On his Revolution Radio program, **Law: Your Shield That Stabs**, Bill Johnson offered educational support to help anyone **who has**:

- ◆ Mathematical proofs contradicting the globe theory. Bill offers a copy of the **VNR Concise Encyclopedia of Mathematics** to anyone who would like to examine such and point out the mathematical errors in the spherical Earth model.
- ◆ Evidence of a flat-Earth supported by a competent fact witness, that is, a whistleblower with first-hand knowledge—not an expert witness offering an opinion.

The purpose of this Questionnaire is to qualify competent candidates to engage in an educational discussion related to formulating a False Claims Act¹ action. Several people have proffered wild claims based on hearsay, their opinions, or asked Bill to watch a YouTube video because the video “proves” the Earth is flat. These people have not grasped Bill’s challenge. He is neutral and is not taking a stance on whether the Earth is flat or a sphere.

Bill is challenging flat-Earthers to prove up. He is, in fact, seeking flat-Earthers who have proof that can support a False Claims Act action—period. This action could put millions² of dollars in the hands of a relator/whistleblower.

¹ In the United States under the False Claims Act, 31 U.S.C. § 3729 et seq., which allows a private individual, or “whistleblower” (or relator), with knowledge of past or present fraud committed against the federal government to bring suit on its behalf.

² The statute provides that anyone who violates the law "is liable to the United States Government for a civil penalty of not less than \$5,000 and not more than \$10,000, as adjusted by the Federal Civil Penalties Inflation Adjustment Act of 1990, plus 3 times the amount of damages which the Government sustains because of the act of that person." https://en.wikipedia.org/wiki/False_Claims_Act

Please consider the following statements. If you can answer each in the affirmative, please reach out to Bill with a signed copy of this Questionnaire to engage.

I understand Bill:

- ◆ Is not trying to prove the Earth is some permutation of a globe model.
- ◆ Is not trying to prove the Earth is some permutation of a flat-Earth model.
- ◆ Is not interested in debating either model.
- ◆ Is interested in educating legitimate candidates whose evidence and witness(es) can pass muster.
- ◆ Is interested in providing educational support in bringing a False Claims Act action, which includes scrutinizing evidence, witnesses, and engaging in competent council.

My witness(es) and evidence:

- ◆ I have, or am, a competent fact witness (whistleblower/relator) who can testify regarding deceptive invoices or misrepresentations made to the United States government, i.e., invoices related to propagating the globe theory when in fact, the submitter of the invoices knew the Earth is flat, or
- ◆ Proofs proving deceptive billings were made to the United States government in support of the Global Positioning System when in fact the Earth is not a globe encircled by satellites, or
- ◆ Proofs that cartographers submitted deceptive invoices, or data, to the United States government when in fact they knew the Earth is flat, or
- ◆ Some other permutation of the examples above.
- ◆ I have first-hand knowledge of the location of certain documents to seek in discovery.

I understand:

- ◆ The difference between opinion and facts; a competent fact witness and an expert witness.
- ◆ An expert witness cannot testify as a fact witness.
- ◆ A competent fact witness cannot offer hearsay or opinions.

I or my witness has:

- ◆ Received a copy of the **VNR Concise Encyclopedia of Mathematics** and I, or another competent mathematician, can refute certain spherical (globe-based) mathematics within. If another, please provide the contact's credential and contact information.
- ◆ Did a word search of the **VNR Concise Encyclopedia of Mathematics** and have confirmed the word 'globe' is not found within, indicating the authors were careful to avoid globe-based mathematical proofs.
- ◆ Listened to each of the following programs and understand the challenge, the large sum that can be award in a False Claims Act, that Bill is clinically neutral in the flat-Earth debate.
 - <https://proselaw.co/show-notes-revolution-radio-2022-08-10/>
 - <https://proselaw.co/show-notes-revolution-radio-2023-02-01/>
 - <https://proselaw.co/show-notes-revolution-radio-2022-03-30/>
 - <https://proselaw.co/show-notes-revolution-radio-2022-11-02/>

This is a short list serious candidates would entertain.
- ◆ Investigated the GPS system, celestial bodies, land and sea navigation and can identify the flaws therein.
- ◆ Understand the difference between triangulation (plane-based) and trilateration (sphere-based) and can identify discrepancies in the GPS model's mathematics.

Provisions

The Act establishes liability when any person or entity improperly receives from or avoids payment to the Federal government. The Act prohibits:

1. Knowingly presenting, or causing to be presented a false claim for payment or approval;
2. Knowingly making, using, or causing to be made or used, a false record or statement material to a false or fraudulent claim;
3. Conspiring to commit any violation of the False Claims Act;
4. Falsely certifying the type or amount of property to be used by the Government;
5. Certifying receipt of property on a document without completely knowing that the information is true;
6. Knowingly buying Government property from an unauthorized officer of the Government, and;
7. Knowingly making, using, or causing to be made or used a false record to avoid, or decrease an obligation to pay or transmit property to the Government.
8. The False Claims act does not apply to IRS Tax matters.
